

An Introductory Energy Rate

Receive exceptionally low introductory gas and electricity rates when you choose our 12 or 24 month Standard Price product.

Right now you can benefit directly from our energy market expertise whilst enjoying the certainty and security of a Standard Price contract. With this offer, you will receive very low gas and electricity prices until 31st October 2008, and then we will extend your contract at our highly competitive rates.

How does this product work?

Despite producing gas and oil, in the North Sea and across the globe, we are not bound to sell only our own gas and electricity. We can offer exceptionally low prices because of the skills of our Energy Trading Desk in London's Canary Wharf. Unlike most of our competitors we can take advantage of the energy markets in the way that we do, because of our unrestrictive buying procedures. Our competitive advantage translates into significant savings for you.

Since this offer is market driven, this is by nature a limited time offer. The sooner you take up this offer, the longer the Introductory Period.

Is this product suitable for you?

If knowing your gas or electricity price and reduced costs are important to your business, then this product is ideal for you. Our Standard Price contract means the price of your gas and electricity is established at the beginning of your contract. You know what your price will be for the Introductory Period and for the duration of the rest of your contract.

Product Mechanics

- Choose a contract term for 12 or 24 months after the Introductory Period.
- We agree your price per unit of energy (p/kWh).
- Your introductory gas and/or electricity costs are agreed, and the duration of your Introductory Period is determined.
- Your gas and/or electricity costs are defined for the remainder of your contract at our very competitive rates.
- A Direct Debit can be arranged over the phone giving you an easy way to pay.
- Either you or Total Gas & Power may terminate the contract at least 3 months prior to the end of the contracted supply period, or the contract will roll over for further periods of 1 year.

How will it help your business?

Our Introductory Rates will keep your overheads down to help reduce your outgoings. You will have the satisfaction of knowing that the whole of your contract is very competitively priced. You will also have excellent support and service, should you ever require it, and best of all, our staff here at Total Gas & Power will manage your supply.

For more information about our Introductory Rates and Standard Price product, please contact your Account Manager or call us on 01737 275700. Alternatively, email us on sales@totalgp.com

All prices quoted and offers made are subject to our terms and conditions, available on request.
